Progressive Orthodontics was founded with...

The concept of opening the world of orthodontics to GPs globally in a way that encourages them to provide the highest level of care.

Progressive Orthodontics was founded with the concept of opening the world of orthodontics to GPs globally in a way that encourages them to provide the highest level of care. Over the past 38 years, we have seen our students not only learn the highest level of orthodontics, but also seen how this knowledge has improved every area of their practice. The result has been our students have consistently had thriving practices, able to adapt with ease to any conditions the market has thrown their way.

The pandemic put this to the ultimate test, forcing many offices globally to shut down or greatly modify how they practice. Dentists were forced to dip into their savings, and many lost their practices. Having the ability to rapidly change their practice, and the ability of orthodontics to be done in a creative way, saved many of our students' careers, and allowed them to thrive even in this most difficult of situations.

If you have not added orthodontics to your practice, NOW is the time. Having the ability to adapt to any situation, add income to your practice, treat your patients to a higher level, and thus win the loyalty of these patients is more important than ever. In a post pandemic world, the level of competition has increased to keep long term patients to secure your future and begin to rebuild your savings, and orthodontics is the most effective way to make both goals a reality.

We at POS realize that the demands on your time are greater than ever and have created new learning formats and creative programs to allow you to learn on your time, at your pace, and in a way that fits your lifestyle. With our lifetime free retake policy, you can continue to learn in any of our formats for the rest of your life for free, ensuring that you are always on the cutting edge and able to successfully treat any case with confidence. I hope you decide this is the year to join the over 9000+ dentists globally that have seen how POS can change your career.

Miles McGann, CEO

FREE RETAKE POLICY FOR LIFE >>>

IN-PERSON

Attend the full series in-person for both lecture and hands-on.

HYBRID

The best of both worlds! Attend in-person for hands-on training and study the remaining material online.

Learning Formats

In an ever-changing world, you can rest assured knowing we are committed to giving you every opportunity to learn.

VIRTUAL CLASSROOM

Combine live interactive webinars with self-paced online study.

SELF-STUDY

Study the full series online at your own pace, under the guidance of an instructor.

TRADITIONAL ORTHODONTICS

Comprehensive Series

Treat 90% of the patients in your practice with the most comprehensive training series in the industry.

Over the past 38 years, Progressive Orthodontics has established itself as the world's #1 orthodontic training program. With over 100 cases used for instruction, you will not only master the principles, but confidently apply them.

With our Traditional Orthodontic series, you can feel confident you are learning orthodontics at the highest level in the world.

BENEFITS OF TRADITIONAL ORTHODONTICS

CONTROL EVERY SITUATION.

With a comprehensive understanding of orthodontics, you'll have complete control from start to finish on even challenging cases.

SUPPORT WHEN YOU WANT IT.

The robust education will empower you to successfully treat any orthodontic case, either on your own, or with any level of our support.

Our education
and mentoring are
compatible with
any aligner system

**Aligner⁺ is an educational, mentoring,
and treatment planning program for
dentists.**

A solid educational foundation,
coupled with the support of a
trusted mentor, will ensure your
success on every aligner patient.

BENEFITS OF ALIGNER⁺

MENTORS PROVIDE A SOLID PLAN.

Use step-by-step plans
and instructor guidance to
ensure every important detail
is analyzed before starting
treatment.

Following a predictable plan
helps you maximize efficiency
and profits.

Let's Practice!

In addition to developing strong diagnosis, analysis, and management skills, you will get to practice techniques under the supervision of experienced instructors. We teach a system that you can use in your practice right away and encourage you to start cases immediately, while in the program.

What do I need to participate?

You will need extra kit materials to participate in the hands-on portions of each program:

- **Traditional Series:** From Seminar 2 (or Module 1)
- **Aligner+ Series:** At Seminar 2

Kits include instruments as well as sample sizes of materials, and can be bought prior from Progressive Dental Supply. If you have the instruments, you do not need to purchase them again. For a list of the products, please contact our staff.

Purchasing good orthodontic supplies should be easy and cost effective. For the past 35 years, Progressive Dental Supply sources recommendations from experienced instructors, allowing you to find the correct products the first time. We offer high quality products at very competitive prices and only carry one of each product to keep ordering simple.

POS Family Worldwide

The Progressive Orthodontics Difference

Empowering dentists through the stability of orthodontics since 1984.
